FIELD SEEDS

103-105 ARCH STREET

PHILADELPHIA, MAR. 30, 1927.

QUICK SHIPMENTS: Most important at this season! Philadelphia has the advantage of a great industrial center in loading cars daily for most interior points, with overnight deliveries. Our facilities enable us to ship large or small orders same day received up to 2 P. M.

RED CLOVER: Market continues strong on domestic seed, lower on French grown Clover. We have a small supply remaining of genuine Penna grown 1925 crop seed. Are willing to ship in small lots as wanted in order to relieve dealers of the risk of carrying over stocks.

ALFALFA: Market unchanged. We believe present low prices safe as an investment to carry over for summer demand.

ALSYKE: Market unchanged. Account of high prices prevailing, we call attention to our special grade quoted below. This grade contains 4 1/2% White Clover which cannot be removed, but is well cleaned in respect to weed seed content.

TIMOTHY: Market continues quiet and inactive. Purchase looks attractive for summer demand.

SWEET CLOVER: Demand continues heavy, note prices below.

SEED CORN: Our stocks are nearly grown, and should not be confused with prices quoted on Western grown seed corn. The use of Western grown corn will result in disappointment to the farmer.

LAWN GRASS SEED: Nearly every householder in suburban and rural districts is in need of lawn grass seed at this time. We suggest a display immediately of our new OLD ENGLISH canisters. These may be shown effectively with very little trouble.

SEED POTATOES: Stocks of varieties listed below are now in Philadelphia. Quality of both Selected and Certified stock is excellent. Selected Michigan Russets are especially nice.

Prices quoted below are to-day's values f. o. b. Philadelphia. Samples sent promptly upon request. Bags not returnable

Choice	29.50		17.70

Quotations above are for French Grown Red Clover seed re-cleaned over various processes to remove impurities peculiar to foreign grown seeds. French Clover seed may be sold at much lower prices in original heavy burlap sacks. It has always been our policy, however, to oppose the distribution to the farmer of foreign grown Clover seed from original imported packages account of the danger of sowing noxious weed seeds.
